For NICE Actimize, Autonomous Financial Crime Management is a concept that represents boundless data, limitless analytics and intelligent automation. But what does autonomous mean to the financial services industry as a whole, and where do we go from here?

Moving Forward with Autonomous

The Autonomous Vision

What are your top three enterprise financial services challenges?

1. Operational efficiencies
2. Compliance
3. Keeping pace with new technology

How much automation is currently in place at your organization?

- Some automation in place, but not enough
- The situation is not likely to change in the next two years

What are your organization’s biggest risks to NOT automating data and evidence-gathering processes?

- Too much data and model tuning
- Insufficient analytics capabilities and IT systems
- Management of data and evidence gathering across multiple sources

Where do we go from here?

Luckily, many of the concerns of our respondents can be addressed by increased automation, improved analytics and the cloud. Are you ready to begin your autonomous journey?
