Actimize University Overview

Actimize University offers an extensive suite of training courses to provide your resources with the necessary skills and knowledge to get the most out of NICE Actimize solutions.

Comprehensive training courses are categorized by Actimize solution and geared toward role-specific functional groups, including business analysts, investigators, strategy managers, system administrators, operations and support staff, implementers, and developers.

Training builds from initial concepts to more detailed and involved methodologies

Clients learn in a focused, direct manner with appropriate hands-on training

Training provides an understanding of Actimize terminology and solution requirements to make delivery easier and more robust in execution. It assists clients achieve full solution adoption (Business User courses). Training makes the configuration, rollout, operations easier (System Operations courses). It also ensures clients develop required skills to understand and own the purchased solution (e.g Implementation courses).

Many courses include a sandbox environment to provide additional exposure to more complex features and functionality. This enables clients to immediately implement lessons learned in their own environment.

All classes are delivered by VIHT (Virtual Instructor – Led Hands-on training) and makes extensive use of a mix of lectures and hands-on labs.

All training is delivered by NICE Actimize experienced education specialists who have extensive business and operational experience.
