[Contact us to learn more.](#)

Our suite of courses teaches your internal resources to more effectively:

- Implement patches
- Deliver new releases
- Perform system customization
- Set up alert and case views
- Perform health checks
- Create and manage users or groups

Comprehensive training courses are categorized by Actimize solution and geared toward role-specific functional groups, including business analysts, investigators, strategy managers, system administrators, operations and support staff, implementers, and developers.

HOW IT WORKS:

Our training is presented using:

- VIHT (Virtual Instructor-led Hands-on Training)
- Onsite classroom courses with an in-person instructor
- eLearning available on NICE Dojo

In all cases:

- Training builds from initial concepts to more detailed and involved methodologies.
- Clients learn in a focused, direct manner with appropriate hands-on training.

Many advanced courses also include a sandbox environment to provide additional exposure to more complex features and functionality. This enables clients to immediately implement lessons learned in their own environment.

Flexible training options include globally scheduled public VIHT classes.

Custom services include:

- Training needs analysis
- Formal NICE Actimize University training plan
- Certification program
- Mentoring partnership with Actimize X-celerate consultants

All training is delivered by NICE Actimize experienced education specialists with extensive business and operational experience.

Courses listed in the NICE Actimize University Catalog are available for current, approved clients, partners and employees only.

About NICE Actimize

NICE Actimize is the largest and broadest provider of financial crime, risk and compliance solutions for regional and global financial institutions, as well as government regulators. Consistently ranked as number one in the space, NICE Actimize experts apply innovative technology to protect institutions and safeguard consumers and investors assets by identifying financial crime, preventing fraud and providing regulatory compliance. The company provides real-time, cross-channel fraud prevention, anti-money laundering detection, and trading surveillance solutions that address such concerns as payment fraud, cybercrime, sanctions monitoring, market abuse, customer due diligence and insider trading.
