

# Reduce Operational Costs with NICE Actimize Managed Services

Reduce operational costs by more than **57 percent**

Save **97 percent** of manuals costs for alert closure

Achieve a **50 percent** cost savings on effort and time to resolve incidents

IT resources at financial institutions are charged with maintaining endless systems to support the financial crime programs. Adding new solutions means additional strain, along with implementation and maintenance activities, all while managing other day-to-day duties and tight budgets.

To shift this burden, NICE Actimize Managed Services is here to help. The Managed Services offering provides support with running, monitoring and maintaining the Actimize platform and solutions. Whether deploying solutions on their own provisioned environment or the Actimize cloud, clients can maximize the value of their investment and keep future costs in check with help from NICE Actimize expert consultants.

## Proven Cost Savings

Our Managed Services engineers have deep technical knowledge of Actimize products and solutions. By sharing this knowledge, clients can expect to see significant cost savings from day one.

Together with fixed competitive pricing for a mutually agreed upon term, the service provides many cost advantages over the direct employment model.

### Drive Savings and Efficiency

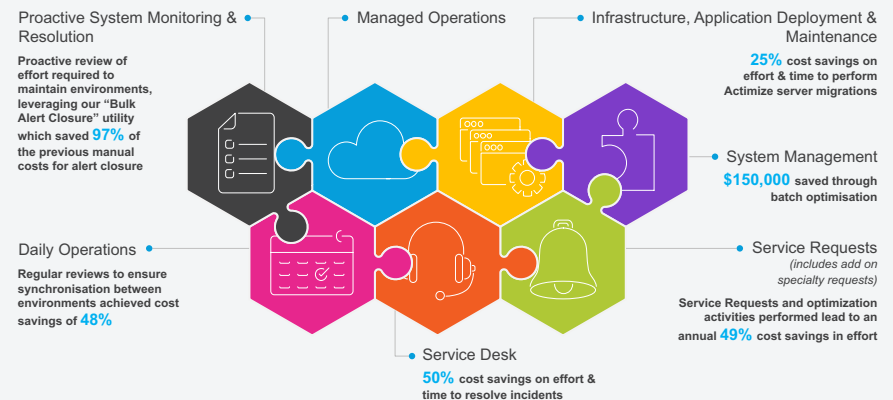

With Managed Services, clients gain freedom and flexibility to tackle a large number of projects. Now, clients can reduce the time to build and educate an internal team so they can make an impact faster. From batch optimization, system upgrades and rule tuning, to product support and infrastructure maintenance, Actimize Managed Services offers dramatic savings in time and resources.

By reducing total cost of ownership, organizations can gain maximum value from their investment, minimizing extraneous tasks and leading to faster impact.

### Savings Breakdown

In one analysis of account efficiencies and overall reduction in hours consumed for each task, a client achieved an overall reduction of 57.33 percent in the total cost of maintaining and operating their Actimize AML environment.

These savings included:
