Screen with Agility

Real-Time Party and Payment Screening

Screening has never been more mission-critical. You need a solution that can cope with volatile geopolitical environments, fluid sanctions lists and growing data volumes without compromising on accuracy.

Strengthen your organization's screening effectiveness and reduce friction with NICE Actimize's real-time party and payments screening solution.

NICE Actimize combines cultural and contextual insights with rich data connectivity and machine learning to **hone screening accuracy and decision-making speed.**

Putting the entity at the center of each investigation, the solution feeds actionable insights to downstream KYC and transaction monitoring systems, for unified financial crime risk management and screening compliance.

Screen Your Way

Ensure comprehensive compliance and **screen who you want, when you want, and how you want.**

NICE Actimize's, award-winning screening solution trusted by

100s
of institutions globally

Party Screening

Real-time, batch, and on-demand screening for seamless onboarding and ongoing monitoring

Payments Screening

Real-time message screening and payment interdiction for ongoing transaction screening

Reduce False Positives Confidently

- Increase screening accuracy and effectiveness by eliminating duplicate records and **ensuring the right data is attributed to the right party** with identity resolution
- **Make your screening more targeted** with our fuzzy matching engine's 24 cultural and regional classifications, 21 language transliterations, and global name and address normalization
- **Better assess each hit's match quality** with predictive scoring. Predictive scoring harnesses historical hit dispositions to clarify the risk of uncertain matches

Enhance Investigation Efficiency

- Flexibly manage hits and speed up reviews with streamlined workflows, intelligent routing, and entity network views
- Reduce the clicks required for alert dispositioning with a single, enriched user interface and automated hit-level disposition
- Speed up customer screening and focus resources on hits that matter with AI-driven predictive scoring

Automate Risk Insights to Other Compliance Solutions

Gain a consolidated, accurate assessment of your customers and the risk they pose with entity-centric insights. NICE Actimize leverages enriched entity profiles from internal and external systems for highly accurate screening.

Actimize delivers screening risk signals to other systems, allowing you to optimize KYC risk scoring, transaction monitoring detection, and customer scoring and profiling.

Optimize System Performance

Ensure ongoing screening accuracy with complete management oversight. Extensive visual dashboards highlight the performance of the solution in an easy-to-understand and customizable format to ensure your program is operating optimally and with full governance.

- **Simulate** and understand the impact of changes on hit volumes in real time
- **Reduce model calibration costs** and remove the need for a separate simulation environment with an integrated production simulation environment
- Improve insights with real-time analytics and intuitive dashboards that **make tuning and model governance seamless**

Cut down on upgrade and maintenance timelines and costs with public and private cloud deployment options. NICE Actimize offers tried-and-true on-premise and cloud solutions that integrate with your existing tech stack.

Turn Ambiguous Matches into Clear, Confident Decisions

Cultural Name Insights uses generative AI to interpret complex or ambiguous matches by analyzing cultural, linguistic and regional nuances. It provides clear, contextual explanations and auto-generated summaries that reduce analyst effort, speed up investigations and enhance screening accuracy and efficiency.
