The annual OpRisk Awards honors excellence in operational risk management and regulation

Hoboken, NJ – June 14, 2017 – NICE Actimize, a NICE (Nasdaq:NICE) business and the industry's largest and broadest provider of a single financial crime, risk and compliance software platform for the financial services industry, was judged the 2017 Financial Crime Product of the Year by Risk.net's Operational Risk Awards in its annual awards event held in London last night. The *OpRisk Awards* event is part of the IncisiveMedia group which includes market-leading brands such as Risk.net and Chartis Research.

The annual OpRisk Awards honors excellence in operational risk management, regulation and risk management service provision. "We are pleased to continue to lead the industry in fighting financial crime by offering solutions that demonstrate our commitment to innovation, through the integration of advanced technologies such as robotic process automation, artificial intelligence, and machine learning which boost operational productivity," said Joe Friscia, President, NICE Actimize. "We are pleased that the *OpRisk* awards judges recognizes our contributions to financial crime risk management and operational excellence on behalf of our customers."

Earlier this year, *Risk Magazine*, part of the Risk.net publishing group and a sister publication of *OpRisk*, named NICE Actimize its 2017 Financial Crime technology category leader in its annual Technology Rankings. Additionally, Chartis, a leading provider of research and analysis on the global market for risk technology recently recognized NICE Actimize as its 2017 RiskTech100® Financial Crime Risk Management category winner for the second year in a row, also ranking it in its "Top Ten" vendor listing.
